Barbeque Catering Made Easy And Delicious

Choose The Best Way To Feed Your Crowd With The Following:

For Pick Up Orders: Call the Q Barbeque location nearest you.
For Delivery and Full Service Catering: Call any Q location or
email at catering@qbarbeque.com

1. Pick Up:

Call in your order to the Q nearest to you and we will be ready
when you get there. All food will be hot and ready in disposable pans.
Pick up between 10:00 AM and 9:00 PM any day of the week.

2. Delivery:

(Minimum \$250.00 order - Delivery fee applies)
Call in your order, we deliver it to your home or business, we set it up,
and you take care of the rest. All food will be delivered hot and ready
in disposable pans. Please call for availability.

**A few items not included in our Pickup or Delivery
food pricing but we can provide if needed :**

Plasticware - \$1.50 per person
(plate, utensils, cup, napkins, wet naps)

A Note from Q Barbeque on Food Quality and Safety

Our Mission is to provide the finest service and food products to our Barbeque fans through uncompromising effort and standards. At Q Barbeque we implement many processes and procedures that ensure the quality and safety of all of our food. When we are on site assisting you with your event we continue to make sure these standards for quality and safety are upheld. When an order is picked up at our store or delivered to your door, quality and safety remains important to Q. Following are a few notes for our customers to consider once your food is in your hands and on-site for your event:

- Please try to pick up your food or arrange delivery as close to serving time as possible.
- Cambro Hot Box rentals (\$25/box/day) are suggested for food orders that will not be served immediately after pick up.
- Disposable Chafing Sets (\$15) are available to keep your food hot during service. Food holding recommendations: Hot 140° -150°, Cold 35° - 40°.
- Ask for a service consultation on exceptionally large orders (50# of BBQ or more).
- Keep your food covered until serving time to ensure freshness and optimal food safety conditions.
